

DESIGN AND CONSTRUCTION WORKS OF PRODUCTION FACILITIES

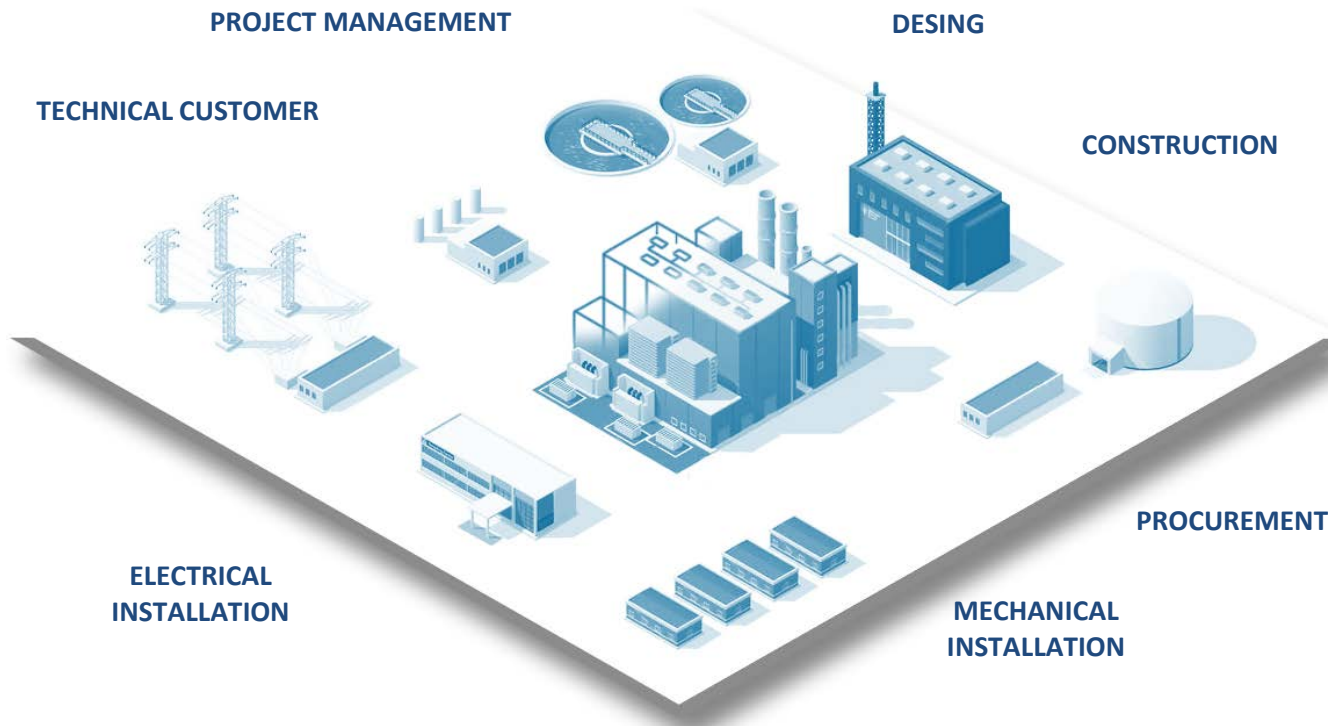

COMPANY

ASG-CONSTRUCTION

“Turn-key” solutions for production facilities in design,
construction and installation works including infrastructure

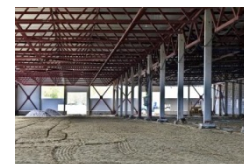

Zambaiti Parati production facility in Stupino.

Designing & construction of wall paper production plant

Period: **2010-2011**

Area of the facility: **6 240 m²**

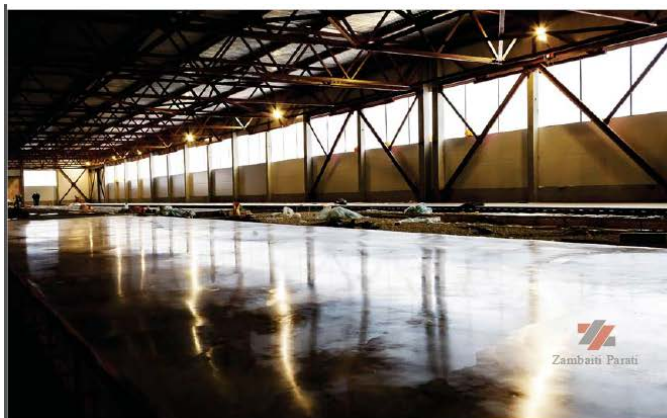

Zambaiti Parati production facility in Stupino

One of ASG-CONSTRUCTION' s competitive advantages is performing nearly all of construction and installation works with our own resources. All interactions in between the people responsible for correlated activities take place in one company in accordance with in-house rules.

Face-to-face communication with the Customer is carried out by one project manager.

There is no need to involve neither any project management company nor general contracting company nor number of subcontractors for realization of project

SUPPLY OF ENGINEERING EQUIPMENT

We are the official partner of the leading global producers of pipe fittings, pumps and equipment instrumentation

MANUFACTURING PRODUCTION OF CONTROL CABINETS

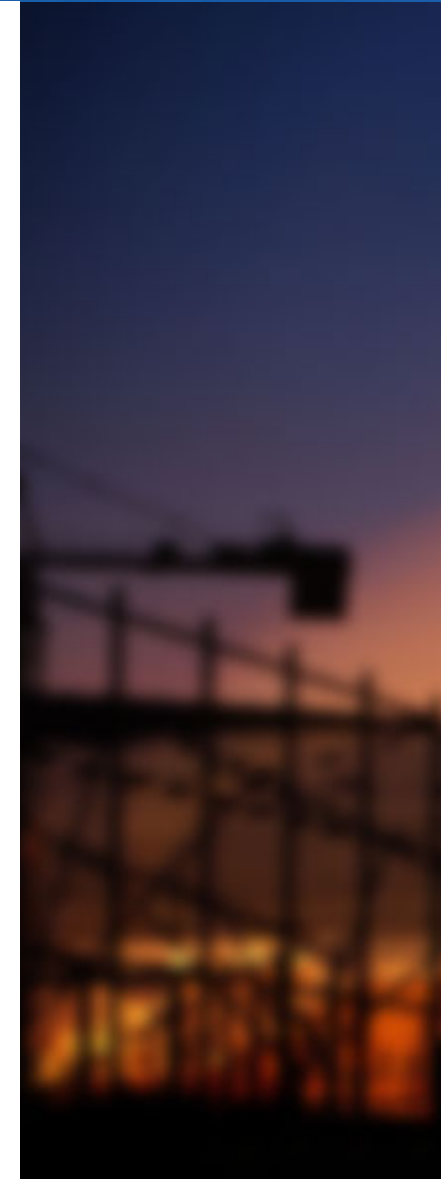

**Control cabinets for the standard solutions
as well as for custom-made tasks**

POTENTIAL OPPORTUNITY FOR COOPERATION

- Process technology engineering
- Production equipment installation (full scope of services)
- Engineering according Russian norms

POTENTIAL OPPORTUNITY FOR COOPERATION

We are opened for cooperation
