

Driving restrictions, goods transport Netherlands

There are no driving restrictions on goods vehicles at weekends or on public holidays. However, in bad weather the transport of dangerous goods is restricted. When visibility is less than 200m, it is forbidden to transport:

- dangerous goods in tanks with a capacity of over 3000 litres;
- fireworks in quantities larger than those mentioned in subsection 1.1.3.6 of the ADR and fireworks with UN numbers 0336 and 0337 with a net explosive mass of more than 20kg.

When visibility falls below 50m or in icy conditions, in addition to the restrictions indicated above, the transport of dangerous goods in quantities larger than those mentioned in subsection 1.1.3.6 of the ADR is also prohibited.

Vehicles transporting exceptional loads are also subject to driving restrictions on national and local roads as follows:

- between 06h00 and 10h00 (morning rush hour);
- between 15h00 and 20h00 (evening rush hour);
- depending on the categories of road to be used for the transport operation and on the weights and dimensions of the transport operation, more specific restrictions will be indicated in the transport authorisation.
